**catholic university of america philosophy: Person, Being, and History** Michael Baur, Robert E. Wood, 2011-03 During a distinguished career as thinker and educator at universities across North America, philosopher Kenneth L. Schmitz has striven to recover metaphysical realism in a world that has, after Kant, turned to the subject. Schmitz has done so through precisely the window of the subjectivity, particularity, and concern for history which marks philosophy after Kant. Although primarily associated with his native University of Toronto, where he was known as the Educator, Schmitz also taught at Loyola Marymount, Marquette, the Catholic University of America, and the John Paul II Institute for Studies on Marriage and Family. His teaching focused upon the singularity of the human person founded upon the notion of being that generates the history of philosophy. He was eminently generous in his appreciation of the philosophers about whom he lectured. He taught philosophy, richly grounded in the history of philosophy as a gold mine rather than as a minefield. Anchored in his spirit, the various essays in this volume by colleagues and former students of Schmitz examine his thought and the subjects of his teaching. In addition to an overall exposition of his own thought, the collection treats themes such as gift, faith and reason,

culture and dialogue, modernity and post-modernity, and themes in the work of various thinkers, including Aristotle, Anselm, Aquinas, Martin Heidegger, Gabriel Marcel, Max Scheler, and Jean-Paul Sartre. Special attention is given to G. W. F. Hegel whose philosophy Schmitz was particularly adept at teaching. He turned many a budding scholar into a life-long student of Hegel's work. Several of the essays begin with a special tribute to the honoree. The volume concludes with a bibliography of Schmitz's many works. Michael Baur is associate professor of philosophy and adjunct professor of law at Fordham University. He is the editor of numerous works including *The Emergence of German Idealism*. Robert E. Wood is professor and former chair of philosophy at the University of Dallas. He is the longtime editor of the *American Catholic Philosophical Quarterly*, and author of three books and numerous articles. Dougherty, Louis Dupré, James Kow, Jay Lampert, John C. McCarthy, +Ralph McInerny, John Russon, Daniel E. Shannon, and Robert E. Wood PRAISE FOR THE BOOK The editors of this book have done a great service in drawing attention to the notable excellences of Schmitz's work, excellences both systematic and historical. Perhaps this will provide some impetus to make available more of his essays, surely worthy to be communicated to as wide an audience as possible. -The Thomist In his work, Kenneth Schmitz seeks to unify the disparate and, argumentatively, to seek the common ground on a diverse gathering of opinions. Not that he is blind to difference or so tolerant that criticism is suspended. Rather, his principal convictions enable him to favor the principle of charity in interpretation and respect in critical assessment. That these qualities have been communicated to his former students and colleagues is apparent in these essays. This collection brings the facets of Schmitz's philosophical thought into a fruitful exchange, and introduces the lifework of an incredibly gifted and original thinker.--Thomas R. **catholic university of america philosophy: The Metaphysics and Theology of the Eucharist** Gyula Klima, 2024-01-01 This volume is about the most mind-boggling sacrament of the Christian faith, also referred to as the Sacrament of the Altar, the Eucharist: in its Roman Catholic interpretation, the conversion of the substance of the bread and wine into the body and blood of Christ for Holy Communion. The challenge of providing a rational interpretation of this doctrine of faith proved to be one of the most contentious issues in the Western history of ideas, apparently going against self-evident metaphysical principles (requiring accidents existing without a substance, and a body in several places at the same time, etc.), and dividing schools of thought, indeed, eventually, warring religious factions. The volume addresses both the metaphysical, theoretical issues involved in this challenge and the historical, theological developments of how meeting this challenge played out first in the schools and even later in religious schisms, leading to the paradigmatic shift from medieval to modern forms of thought. The essays of the volume derive from the lectures of an eponymous international conference held in Budapest, Hungary, which was also the occasion of founding the Society for the History of European Ideas (SEHI); accordingly, the book is the first volume of the annual Proceedings of the SEHI. This book is aimed just as much at laymen and religious scholars seeking a better understanding of their faith as at anyone seeking this understanding with a non-religious attitude.

**catholic university of america philosophy: *Culture and the Thomist Tradition*** Tracey Rowland, 2003-09-02 *Culture and the Thomist Tradition* examines the crisis of Thomism today as thrown into relief by Vatican II and synthesises the theological critiques of modernity to be found in the works of Alasdair MacIntyre and the Radical Orthodoxy circle.
