i wonder as i wander an autobiographical journey american century series: Not So Simple Donna Sullivan Harper, 1996-08 The Simple stories, Langston Hughes's satirical pieces featuring Harlem's Jesse B. Semple, have been lauded as Hughes's greatest contribution to American fiction. In *Not So Simple*, Donna Akiba Sullivan Harper provides the first full historical analysis of the Simple stories. Harper traces the evolution and development of Simple from his 1943 appearance in Hughes's weekly *Chicago Defender* column through his 1965 farewell in the *New York Post*. Drawing on correspondence and manuscripts of the stories, Harper explores the development of the Simple collections, from *Simple Speaks His Mind* (1950) to *Simple's Uncle Sam* (1965), providing fresh and provocative perspectives on both Hughes and the characters who populate his stories. Harper discusses the nature of Simple, Harlem's everyman, and the way in which Hughes used his character both to teach fellow Harlem residents about their connection to world events and to give black literature a hero whose day-after-day heroism would exemplify greatness. She explores the psychological, sociological, and literary meanings behind the Simple stories, and suggests ways in which the stories illustrate lessons of American history and political science. She also examines the roles played by women in these humorously ironic fictions. Ultimately, Hughes's attitudes as an author are measured against the views of other prominent African American writers. Demonstrating the richness and complexity of this Langston Hughes character and the Harlem he inhabited. *Not So Simple* makes an important contribution to the study of American literature.

i wonder as i wander an autobiographical journey american century series: *Black Heart* Phillip M. Richards, 2006 *Black Heart* is a provocative and polemical critique of African American literary studies at the beginning of the twenty-first century. Through a series of sharp and insightful essays on a wide range of critical thinkers, Phillip M. Richards traces what he sees as an erosion of moral reflection in African American literary culture - a process that has left contemporary black academic criticism socially, politically, and culturally hollow. Exploring the work of Henry Louis Gates, Jr., Michael Dyson, Karla Holloway and others, *Black Heart* sets forth the rhetorical strategies of present-day African American critical writing, and probes the ethical dimensions of its institutional life in the academy, the media, and the public sphere. Richards undertakes to recover the procedures by which cultural and moral value may be recovered for black literary culture and to establish the possibilities for a new humanism in African American writing and literary culture.

i wonder as i wander an autobiographical journey american century series: *American Girls in Red Russia* Julia L. Mickenberg, 2017-04-25 If you were an independent, adventurous, liberated American woman in the 1920s or 1930s where might you have sought escape from the constraints and compromises of bourgeois living? Paris and the Left Bank quickly come to mind. But would you have ever thought of Russia and the wilds of Siberia? This choice was not as unusual as it seems now. As Julia L. Mickenberg uncovers in *American Girls in Red Russia*, there is a forgotten counterpoint to the story of the Lost Generation: beginning in the late nineteenth century, Russian revolutionary ideology attracted many women, including suffragists, reformers, educators, journalists, and artists, as well as curious travelers. Some were famous, like Isadora Duncan or Lillian Hellman; some were committed radicals, though more were just intrigued by the "Soviet experiment." But all came to Russia in search of social arrangements that would be more equitable, just, and satisfying. And most in the end were disillusioned, some by the mundane realities, others by horrifying truths. Mickenberg reveals the complex motives that drew American women to Russia as they sought models for a revolutionary new era in which women would be not merely independent of men, but also equal builders of a new society. Soviet women, after all, earned the right to vote in 1917, and they also had abortion rights, property rights, the right to divorce, maternity benefits, and state-supported childcare. Even women from Soviet national minorities—many recently unveiled—became public figures, as African American and Jewish women noted. Yet as Mickenberg's collective biography shows, Russia turned out to be as much a grim commune as a utopia of freedom, replete with economic, social, and sexual inequities. *American Girls in Red Russia* recounts the experiences of women who saved starving children from the Russian famine, worked on rural communes in Siberia, wrote for Moscow or New York newspapers, or performed on Soviet stages. Mickenberg finally tells these forgotten stories, full of hope and grave disappointments.

i wonder as i wander an autobiographical journey american century series: **Russell Lee: A Photographer's Life and Legacy** Mary Jane Appel, 2020-11-17 Russell Lee, a contemporary of Walker Evans and Dorothea Lange, now emerges from the shadows as one of the most influential documentary photographers in American history. The most prolific photographer of the Great Depression, Russell Lee has never been canonized for his iconic images. With this compulsively readable and definitive biography, historian and archivist Mary Jane Appel finally uncovers Lee's rebellious life, tracing his journey from blue-blood beginnings to intrepid years of activism and pioneering creativity, through the incredible body of work he left behind. Born in the quintessential turn-of-the-century small town of Ottawa, Illinois, in 1903, Lee grew up in a wealthy family riddled with tragedy. He trained in college to become a chemical engineer, but was quickly drawn to Greenwich Village, where he developed an interest in social change and the arts. In 1935, the charismatic bohemian picked up a camera and a year later walked into the office of Roy Stryker, head of the Historical Section of the Resettlement Administration, later renamed the Farm Security Administration (FSA), setting in motion a new life trajectory. The Historical Section aimed to capture rural poverty and the New Deal programs designed to abolish it. But Stryker imagined a much broader pictorial sourcebook for America, and no one on his legendary team—including Dorothea Lange, Walker Evans, and Gordon Parks, among others—would be more dedicated to reaching this goal than Russell Lee. As Appel demonstrates, Stryker and Lee developed a fascinating symbiotic relationship that resulted in a massive and complex breadth of work. Living out of his car from the fall of 1936 to mid-1942, Lee crisscrossed America's back roads more than any photographer of his era. During this time, he shot 19,000 negatives that were captioned and printed—more than twice that of any other FSA photographer. He captured arresting images of sweeping dust storms and devastating floods, and chronicled the World War II home front and the last gasp of a small-town America that was inexorably vanishing, all the while focusing prophetically on issues like segregation and climate change, decades before they became national concerns. Meticulously weaving previously unseen letters and diaries, Appel brilliantly reveals why Lee's profile has remained obscured, while his contemporaries became broadly celebrated. With more than 100 images spread throughout, Russell Lee speaks not only to the complexity of a pioneering documentary photographer's work but to a seminal American moment captured viscerally like never before.

i wonder as i wander an autobiographical journey american century series: Radical Legacies Arthur Redding, 2015-12-24 What use is thinking? This study addresses the ways in which modern American thinkers have intervened in the public sphere and attempted to mediate relations between social and political institutions and cultural and intellectual production. Chapters on both well-known (Henry Adams, Langston Hughes, C. Wright Mills, Angela Davis) and neglected (Randolph Bourne, Mary McCarthy, Paul Goodman) public intellectuals considers how these figures have address a range of problems, including the dangers and difficulty of critical dissent thought during wartime, the contemporary crisis of the humanities under neoliberalism, the legacy of American anti-intellectualism, academic professionalism, and the perils of consumer culture and popular tastes. This book reviews in as critically sympathetic a manner as possible a select few of the minor and major currents of twentieth-century American radical thinking in order to see where they might take us, and how they inflect our current social and intellectual predicaments. Arguing that any use-value theory of intellectual production is limiting, *Radical Legacies* endeavors to maintain and expand a space and reassert an argument for the importance of sustained critical reflection on our collective dilemmas today. It assesses a practice of thought that is engaged, committed, involved, and timely, without being necessarily "practical" or even useful.

i wonder as i wander an autobiographical journey american century series: Translators on Translation Kelly Washbourne, 2024-12-13 This is a book in pursuit of translators' philosophies or personal theories of translation. From Vladimir Nabokov and William Carlos Williams to Ursula K. Le Guin and Langston Hughes, *Translators on Translation* coaxes each subject's reflections on their art, their particular view of translation, and how they carry out their specific form of translation. The translators' intellectual biographies expand our understanding of their views, often in their own words, on the aesthetic, political, and philosophical nature of translation; lend insight into their translation decision-making on specific works; afford critical summaries and contextualizations of their key theoretical and theoretico-practical works; unearth their figurative conceptualizations of translation; and construct their subject identities. As a person's body of work can be diffuse, scattered, fragmentary, and contradictory, inner lives have to be constructed and reconstructed. Through a recovery and narrativizing of their writing and speaking on translation, their interviews, paratextual commentary, letters, lecture notes, and even fiction and poetry, these late twentieth-century subjects answer the question, What is translation to you? The book is supported by additional translators' profiles and selected translations on the Routledge Translation Studies portal. *Translators on Translation* is key reading for courses on translation practice, translation history, translation theory, and creative writing courses that engage in translation while also being vital reading for practicing literary translators.
