

shenzhen intelligent technology co ltd

Shenzhen Intelligent Technology Co Ltd: Pioneering Innovation in Smart Solutions

shenzhen intelligent technology co ltd stands as a beacon of innovation and technological advancement in the bustling heart of China's tech industry. Known for its cutting-edge developments and commitment to quality, this company has carved a niche in intelligent technology solutions that empower industries and transform everyday life. Whether you're exploring smart hardware, IoT systems, or AI-driven applications, Shenzhen Intelligent Technology Co Ltd offers a compelling story of progress and visionary leadership.

The Rise of Shenzhen Intelligent Technology Co Ltd

Founded in one of the world's fastest-growing tech hubs, Shenzhen Intelligent Technology Co Ltd has rapidly expanded its footprint across various sectors. Shenzhen itself is recognized globally as a powerhouse for electronics manufacturing and innovation, and this company embodies that spirit by continuously pushing the boundaries of what technology can achieve.

The company's foundation rests on integrating advanced research and development with practical applications, making intelligent technology accessible and efficient. Over the years, it has developed a diverse portfolio ranging from smart devices and automation components to comprehensive IoT solutions tailored for businesses and consumers alike.

Core Competencies and Product Range

At its core, Shenzhen Intelligent Technology Co Ltd specializes in:

- **Smart Hardware Development:** Designing and manufacturing intelligent modules, sensors, and control systems that form the backbone of modern smart devices.
- **Internet of Things (IoT) Solutions:** Creating interconnected ecosystems that allow seamless communication between devices for enhanced automation and data analysis.
- **Artificial Intelligence Integration:** Embedding AI to enable smarter decision-making, predictive analytics, and adaptive learning in various applications.
- **Customized Software Solutions:** Building tailored software platforms to support hardware products, ensuring user-friendly interfaces and robust performance.

This comprehensive approach not only showcases the company's versatility but also its dedication to delivering end-to-end intelligent technology solutions.

Innovating in the Era of Smart Technology

The world is rapidly embracing smart technology, and Shenzhen Intelligent Technology Co Ltd is at the forefront of this movement. Their innovations are particularly noticeable in sectors such as smart home devices, industrial automation, and urban infrastructure.

Smart Home and Consumer Electronics

One of the most exciting areas where Shenzhen Intelligent Technology Co Ltd excels is the smart home market. Their products often include smart lighting controls, security systems, and energy management devices that connect effortlessly via mobile apps or voice assistants. By focusing on user experience, the company ensures that technology enhances convenience without complexity.

The integration of AI in these products allows for adaptive learning, where systems adjust to user habits and preferences, creating a personalized environment. This level of innovation not only improves quality of life but also promotes energy efficiency and security.

Industrial Automation and IoT

Beyond consumer electronics, Shenzhen Intelligent Technology Co Ltd plays a vital role in industrial sectors by providing automation solutions that increase productivity and reduce operational costs. Their IoT platforms enable real-time monitoring, predictive maintenance, and data-driven decision-making, which are critical in manufacturing, logistics, and supply chain management.

By leveraging intelligent sensors and cloud connectivity, the company helps businesses transition towards smart factories, aligning with the global Industry 4.0 trend. This transformation facilitates better resource management and scalability, giving companies a competitive edge.

Why Shenzhen Intelligent Technology Co Ltd Stands Out

What differentiates Shenzhen Intelligent Technology Co Ltd from other players in the technology landscape? Several key factors contribute to its strong reputation.

Commitment to Research and Development

Innovation is the lifeblood of this company. It allocates substantial resources to R&D, collaborating with universities, technology parks, and industry experts. This continuous investment ensures that their products remain at the cutting edge, incorporating the latest advancements in AI, machine learning, and sensor technologies.

Quality Assurance and Certification

In a market flooded with tech solutions, quality and reliability are paramount. Shenzhen Intelligent Technology Co Ltd adheres to strict quality control standards and holds numerous certifications that validate the safety, performance, and environmental compliance of their products. This commitment builds trust with clients and partners worldwide.

Customer-Centric Approach

Understanding client needs and providing tailored solutions is a hallmark of Shenzhen Intelligent Technology Co Ltd. They emphasize after-sales support, customization options, and collaborative project development, making the company a preferred partner for businesses seeking intelligent technology integration.

Global Impact and Future Outlook

While rooted in Shenzhen, the company's influence extends globally, supplying intelligent technology components and solutions to markets across Asia, Europe, and the Americas. Their ability to adapt to diverse market demands and regulatory environments signifies robust operational agility.

Looking forward, Shenzhen Intelligent Technology Co Ltd is poised to embrace emerging trends such as 5G connectivity, edge computing, and sustainable technology practices. These advancements will further enhance their product capabilities and open new avenues for innovation.

Embracing Sustainability in Intelligent Technology

Sustainability is becoming a critical criterion in technology development. Shenzhen Intelligent Technology Co Ltd integrates eco-friendly materials and energy-efficient designs in its products to reduce environmental impact. Their focus on sustainable innovation aligns with global efforts to create greener smart cities and industries.

Collaborations and Strategic Partnerships

The company continues to build strategic alliances with technology firms, research institutions, and government bodies. These collaborations foster knowledge exchange, accelerate product development, and facilitate access to new markets, ensuring Shenzhen Intelligent Technology Co Ltd remains a dynamic player within the global smart technology ecosystem.

Exploring intelligent technology through the lens of Shenzhen Intelligent Technology Co Ltd reveals how a combination of visionary leadership, technical expertise, and customer focus can drive meaningful progress. Their journey exemplifies the transformative power of smart innovation, making everyday environments smarter, safer, and more connected.

Frequently Asked Questions

What products does Shenzhen Intelligent Technology Co Ltd specialize in?

Shenzhen Intelligent Technology Co Ltd specializes in the development and manufacturing of smart home devices, IoT solutions, and intelligent automation products.

Where is Shenzhen Intelligent Technology Co Ltd located?

Shenzhen Intelligent Technology Co Ltd is located in Shenzhen, Guangdong Province, China, a major technology and innovation hub.

Is Shenzhen Intelligent Technology Co Ltd involved in international markets?

Yes, Shenzhen Intelligent Technology Co Ltd exports its products globally and collaborates with international partners to expand its presence in smart technology markets.

What industries does Shenzhen Intelligent Technology Co Ltd serve?

The company serves various industries including home automation, security systems, healthcare technology, and industrial IoT applications.

What are some recent innovations introduced by Shenzhen Intelligent Technology Co Ltd?

Recent innovations include AI-powered smart home devices, advanced sensor technology, and integrated IoT platforms designed to enhance automation and user convenience.

How does Shenzhen Intelligent Technology Co Ltd ensure product quality?

The company implements strict quality control processes, adheres to international standards, and continuously invests in research and development to maintain high-quality products.

Does Shenzhen Intelligent Technology Co Ltd offer customization for its products?

Yes, Shenzhen Intelligent Technology Co Ltd provides customized solutions to meet specific client requirements, including tailored software integration and hardware modifications.

Additional Resources

Shenzhen Intelligent Technology Co Ltd: A Deep Dive into Innovation and Market Presence

shenzhen intelligent technology co ltd has emerged as a noteworthy player in the rapidly evolving technology landscape of China. Known for its focus on intelligent hardware, IoT solutions, and smart devices, the company has steadily carved out a niche in both domestic and international markets. This article offers a thorough examination of Shenzhen Intelligent Technology Co Ltd, exploring its product portfolio, market strategy, technological capabilities, and position amid global competition.

Company Overview and Market Position

Founded in Shenzhen, a city synonymous with technological innovation, Shenzhen Intelligent Technology Co Ltd benefits from access to one of the most dynamic tech ecosystems worldwide. The company specializes in the design, manufacturing, and distribution of intelligent electronics, including smart home devices, wearable technology, and automation components. Leveraging Shenzhen's advanced supply chains and manufacturing infrastructure, the firm emphasizes quality control and rapid product development cycles.

In terms of market presence, Shenzhen Intelligent Technology Co Ltd has established partnerships with numerous retailers and distributors across Asia, Europe, and North America. Their ability to integrate emerging technologies such as artificial intelligence, cloud computing, and 5G connectivity into practical consumer applications has helped them maintain competitive advantages in a crowded field.

Technological Innovation and Product Portfolio

Smart Home Solutions

A significant portion of Shenzhen Intelligent Technology Co Ltd's offerings revolve around smart home ecosystems. Their portfolio includes smart lighting systems, intelligent security cameras, connected thermostats, and voice-controlled assistants. These products are designed to interoperate seamlessly, creating an integrated user experience that appeals to tech-savvy consumers seeking convenience and energy efficiency.

The company's smart home devices often feature AI-driven algorithms for adaptive learning, enabling systems to adjust automatically to user habits. This technological edge positions Shenzhen Intelligent Technology Co Ltd favorably against competitors that rely on more static automation.

Wearable and Health Monitoring Devices

Recognizing the global surge in health-conscious consumer electronics, Shenzhen Intelligent Technology Co Ltd has expanded into wearable technology. Their range includes fitness trackers, smartwatches, and health monitors capable of tracking vital signs like heart rate, sleep patterns, and blood oxygen levels.

The integration of Bluetooth Low Energy (BLE) and compatibility with major smartphone operating systems enhances these devices' usability. Moreover, the company invests in developing proprietary software platforms that aggregate user data securely, offering personalized health insights.

Industrial and Commercial IoT Applications

Beyond consumer products, Shenzhen Intelligent Technology Co Ltd has made strides in industrial IoT (IIoT). Their smart sensors, automated control systems, and data analytics platforms cater to sectors such as manufacturing, logistics, and energy management. The company's solutions aim to optimize operational efficiencies, reduce downtime, and enhance predictive maintenance capabilities.

This diversification into IIoT not only broadens the firm's revenue streams but also demonstrates its commitment to leveraging intelligent technology across various market segments.

Competitive Analysis and Industry Standing

In a landscape populated by giants like Huawei, Xiaomi, and DJI, Shenzhen Intelligent

Technology Co Ltd competes by focusing on mid-tier market segments where customization and affordability are key. Unlike some larger competitors that prioritize brand prestige and mass-market appeal, Shenzhen Intelligent Technology Co Ltd often adopts a more agile approach, tailoring products to specific client needs.

Strengths

- **Agility and Innovation:** The company's R&D teams are reportedly adept at rapid prototyping and iterative development, allowing quick adaptation to market trends.
- **Cost-Effective Manufacturing:** Leveraging Shenzhen's extensive supply chains results in competitive pricing without significant quality compromises.
- **Diverse Product Range:** Catering to both consumer and industrial markets mitigates dependency on any single sector.

Challenges

- **Brand Recognition:** Compared to established multinational corporations, Shenzhen Intelligent Technology Co Ltd still faces hurdles in achieving global brand prominence.
- **Intellectual Property Concerns:** Operating in a highly competitive environment, the company must navigate complex patent landscapes and potential infringement risks.
- **Market Saturation:** The smart device market, particularly in China, is highly saturated, requiring continuous innovation to maintain relevance.

Strategic Initiatives and Future Outlook

Shenzhen Intelligent Technology Co Ltd has reportedly invested heavily in artificial intelligence research and edge computing to enhance its product intelligence. Collaborations with academic institutions and technology incubators in Shenzhen indicate a forward-looking strategy aimed at incorporating next-generation technologies such as machine learning and blockchain.

Moreover, the company is reportedly expanding its international footprint through partnerships and targeted marketing campaigns in emerging markets where demand for smart technology is growing. Emphasizing eco-friendly materials and sustainable

manufacturing processes also aligns Shenzhen Intelligent Technology Co Ltd with global environmental standards, which could attract environmentally conscious consumers and business partners.

Adoption of 5G and Connectivity Enhancements

One notable area of focus is the integration of 5G technology within their IoT devices. This advancement promises faster data transmission, lower latency, and improved device-to-device communication, critical for both consumer convenience and industrial automation. Shenzhen Intelligent Technology Co Ltd's commitment to 5G-compatible products positions it well to capitalize on the ongoing telecommunications evolution.

Impact on the Smart Technology Ecosystem

By contributing a broad spectrum of smart devices and IoT solutions, Shenzhen Intelligent Technology Co Ltd plays a vital role in shaping the intelligent technology ecosystem. Its products facilitate greater automation and data-driven decision-making, advancing both consumer lifestyles and industrial productivity.

The company's ability to blend affordability with innovation also broadens access to intelligent technologies, making smart solutions available to a wider audience. This democratization of smart tech, particularly in the fast-growing Asian markets, underscores Shenzhen Intelligent Technology Co Ltd's significance beyond mere product manufacturing.

As technology continues to evolve, companies like Shenzhen Intelligent Technology Co Ltd that maintain a balance between innovation, adaptability, and market responsiveness are likely to sustain their relevance. Their trajectory reflects broader trends in the global technology industry, where agility and integration define competitive survival.

shenzhen intelligent technology co ltd: *Raspberry Pi Technology* Simon J. Cox, Steven J. Johnston, 2018-04-03 This book is a printed edition of the Special Issue Raspberry Pi Technology that was published in Electronics

shenzhen intelligent technology co ltd: Novel Technology and Whole-Process Management in Prefabricated Building Ping Xiang, Liangdong Zuo, 2024-07-19 This open access book discusses the challenges, methodologies, applications in construction, technology and whole-process management of prefabricated buildings. It is a valuable resource for building engineers looking to understand the effective use of technology, construction methods, and management systems. The contributions in this book highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration, ultimately advancing the industrialization of buildings and information technology.

shenzhen intelligent technology co ltd: *Intelligent Equipment and Special Robots* Qiang

Zhang, 2024-05-15 Developments in AI are occurring rapidly, with new applications constantly on the increase, and one of the areas in which interesting developments are always taking place is that of intelligent equipment and special robots. This book presents papers from ICIESR 2023, the 2nd International Conference on Intelligent Equipment and Special Robots, held from 20 to 22 October 2023 in Qingdao, China. The conference series has established a platform for experts, researchers, and students working in related fields to present, exchange, and discuss the latest advances and developments, linking various branches of science and technology. It promotes innovation in, and the application of, intelligent equipment and special robots, and fosters the development of related industries, and this year's conference brought together 180 participants. A total of 206 submissions was received for the conference, of which 185 were selected for peer review, in the course of which they were evaluated for theme, structure, method, content, language, and format. Of these, 80 papers were accepted for presentation and publication, resulting in an acceptance rate of 39%. Topics covered include intelligent detection technology, smart manufacturing, artificial intelligence, mechatronics technology, and creative and entertaining robots, among others. Providing a current overview of recent developments in the field, the book will be of interest to all those whose work relates to intelligent equipment and special robots.

shenzhen intelligent technology co ltd: Market Intelligence Report: Computer Cases , shenzhen intelligent technology co ltd: System Innovation for a Global Economy Artde Donald Kin-Tak Lam, Stephen D. Prior, Siu-Tsen Shen, Sheng-Joue Young, Liang-Wen Ji, 2025-10-10 System Innovation for a Global Economy contains the contribution to the 2025 International Conference on Applied System Innovation (ICASI 2025, Tokyo, Japan, April 22-25, 2025). Of the more than 500 submitted papers from 14 different countries, after review approximately a quarter was accepted for publication. The book aims to provide an integrated communication platform for researchers from a wide range of topics including information technology, communication science, applied mathematics, computer science, advanced material science, and engineering. System Innovation for a Global Economy enhances interdisciplinary collaborations between science and engineering technologists and is aimed at academics and technologists interested in the above-mentioned areas.

shenzhen intelligent technology co ltd: Image and Graphics Yao Zhao, Nick Barnes, Baoquan Chen, Rüdiger Westermann, Xiangwei Kong, Chunyu Lin, 2019-11-27 This three-volume set LNCS 11901, 11902, and 11903 constitutes the refereed conference proceedings of the 10th International Conference on Image and Graphics, ICIG 2019, held in Beijing, China, in August 2019. The 183 full papers presented were selected from 384 submissions and focus on advances of theory, techniques and algorithms as well as innovative technologies of image, video and graphics processing and fostering innovation, entrepreneurship, and networking.

shenzhen intelligent technology co ltd: Health Information Processing Yanchun Zhang, Qingcai Chen, Hongfei Lin, Lei Liu, Xiangwen Liao, Buzhou Tang, Tianyong Hao, Zhengxing Huang, 2025-04-10 This two-volume set CCIS 2432-2433 constitutes the refereed proceedings of the 10th China Health Information Processing Conference, CHIP 2024, held in Fuzhou, China, during November 15-17, 2024. The 32 full papers included in this set were carefully reviewed and selected from 65 submissions. They are organized in topical sections as follows: biomedical data processing and model application; mental health and disease prediction; and drug prediction and knowledge map.

shenzhen intelligent technology co ltd: Health Information Processing. Evaluation Track Papers Yanchun Zhang, Qingcai Chen, Hongfei Lin, Lei Liu, Xiangwen Liao, Buzhou Tang, Tianyong Hao, Zhengxing Huang, Jianbo Lei, Zuofeng Li, Hui Zong, 2025-05-14 This book constitutes the refereed proceedings of the 10th China Health Information Processing Conference, CHIP 2024, held in Fuzhou, China, November 15-17, 2024. The CHIP 2024 Evaluation Track proceedings include 19 full papers which were carefully reviewed and grouped into these topical sections: syndrome differentiation thought in Traditional Chinese Medicine; lymphoma information extraction and automatic coding; and typical case diagnosis consistency.

shenzhen intelligent technology co ltd: Technological Entrepreneurship in China Claudio Petti, 2012-04-01 'This unique book offers a series of case studies about how technology creation has evolved in China. This is an in-depth perspective about the trajectory and the entrepreneurial transformations of some successful high-tech Chinese companies in different industries. The book pictures as well the roles played by government, universities and companies in fostering regional systems of innovation in different parts of China. Written by Chinese and foreign experts, those views are not partial; authors reveal an untruncated and thorough analysis.' Dominique Jolly, SKEMA Business School, France Bringing technologies to the market, thereby creating profits, high-qualified jobs and industrial upgrading is one of the means by which China can fuel its brand new growth model based on innovation and sustainability. Much is known about the mechanisms of technological entrepreneurship. But how does this happen in China? Who is doing what? Is there a 'Chinese way' to do technological entrepreneurship? This thought-provoking book provides readers with a closer look at these issues and clarifies them through a number of case studies discussed from the perspectives of both Chinese and international contributors. Technological Entrepreneurship in China offers a comprehensive and practical assessment of technological entrepreneurship in China. Exclusively based on cases, the book tackles the issues of technological entrepreneurship in China from a systemic view. In so doing the book provides an account of the main factors at work behind Chinese technological entrepreneurship and their interplay, the past and present transitions facing Chinese technology-based enterprises, and how those transitions were and are being dealt with. It offers a glimpse in a huge natural experiment that will prove insightful for both scholars and policymakers.

shenzhen intelligent technology co ltd: Services - SERVICES 2021 Mohamed Adel Serhani, Liang-Jie Zhang, 2022-02-12 This book constitutes the refereed proceedings of the 17th World Congress on Services, SERVICES 2021, held as part of the Services Conference Federation, SCF 2021, in December 2021. The conference was held virtually due to the COVID-19 pandemic. The 7 full papers and 2 short papers presented were carefully reviewed and selected from 43 submissions. The papers cover topics in the field of Advertising Services, Banking Services, Broadcasting & Cable TV Service, Business Services, Communications Services, Government Services, Real Estate Operations Services, Schools and Education Services, Healthcare Services, and much more.

shenzhen intelligent technology co ltd: *Global Sources Electronics* , 2007

shenzhen intelligent technology co ltd: In Vitro Diagnostic Industry in China Haibo Song, Lizhong Dai, 2023-12-08 This book systematically describes the achievements and current situation of in vitro diagnostic (IVD) industry in China. It consists of twelve parts, including the overview on the IVD industry in China in 2021, hot technologies and products of IVD industry, academic, technological and product development in the field of IVD, such as biochemical diagnosis, immune-diagnosis, point-of-care testing, molecular diagnosis, blood and body fluid diagnosis, microbial detection, laboratory assembly line, etc. In this second edition, the new contents added include the development of new coronavirus molecular diagnostic products, flight mass spectrometry, tandem mass spectrometry, tumor markers, ELISA immune reagents, autoimmune diagnostics, concomitant diagnosis, fecal and intestinal microecology detection, pathological diagnosis, raw materials for in vitro diagnostic reagents, standard substances and quality controls for in vitro diagnostic reagents, etc., making the content of the whole book more novel and rich. This book is compiled by an editorial committee composed of well-known entrepreneurs, experts and professors in IVD industry in China. It is a reference book for practitioners of IVD industry, medical laboratory and medical staffs all over the world.

shenzhen intelligent technology co ltd: *China Major Manufacturers* ,

shenzhen intelligent technology co ltd: Selected Cases from the Supreme People's Court of the People's Republic of China China Institute of Applied Jurisprudence, 2024-01-16 This book includes focal and vital cases tried by presiding justices, guiding cases from the Supreme People's Court, and cases discussed at the Joint Meetings of Presiding Judges from various tribunals. This

book is divided into three sections, including Cases by Justices, Guiding Cases, and Typical Cases, which will introduce readers to Chinese legal processes, legal methodology, and ideology in an intuitive, clear, and accurate manner. This book presents cases selected by the trial departments of the Supreme People's Court of China from their concluded cases. In order to give full weight to the legal value and social function of cases from the Supreme People's Court, and to achieve the goal of "serving the trial practices, serving economic and social development, serving legal education and legal scholarship, serving legal exchanges among Chinese and foreign legal communities, and serving the rule of law in China", the China Applied Jurisprudence Institute, with the approval of the Supreme People's Court, opts to publish Selected Cases from the Supreme People's Court of the People's Republic of China in both Chinese and English, for domestic and overseas distribution.

shenzhen intelligent technology co ltd: Co-governed Sovereignty Network Hui Li, Xin Yang, 2021-07-26 This open access book introduces MIN, a novel networking architecture to implement the sovereign equality of all countries in the cyberspace. Combining legal theory and network technology, it first discusses the historical development of sovereignty and expounds the legal basis of cyberspace sovereignty. Then, based on the high-performance blockchain, it describes a new network architecture designed to implement co-governance at the technical level. Explaining network sovereignty and including rich illustrations and tables, the book helps readers new to the field grasp the evolution and necessity of cyberspace sovereignty, gain insights into network trends and develop a preliminary understanding of complex network technologies such as blockchain, security mechanisms and routing strategies. The MIN network implements the "four principles" of cyberspace adopted by most nations and people: respecting cyber sovereignty; maintaining peace and protection; promoting openness and cooperation; and building good order to provide network system security. There maybe three scales of application scenario for MIN, the big one is for UN of Cyberspace, the middle one is for Smart city, the small one is for enterprise group or organizations as private network, MIN-VPN. We have developed the product of MIN-VPN, you could find its message on the preface if care about the security of your network.

shenzhen intelligent technology co ltd: MSIEID 2022 Haocun Wu, Zhisheng Wang, Sikandar Ali Qalati, 2023-03-14 The Management Science Informatization and Economic Innovation Development Conference is a leading conference held annually. It aims at building an academic platform for the communication and academic exchange among participants from various fields related to management science informatization and economic innovation development. Here, scholars, experts, and researchers are welcomed to share their research progress and inspirations. It is a great opportunity to promote academic communication and collaboration worldwide. This volume contains the papers presented at the 4th Management Science Informatization and Economic Innovation Development Conference (MSIEID 2022), held during December 9th-11th, 2022 in Chongqing, China (virtual event). For the safety concern of all participants under nowadays situation, we decided to hold it as a virtual conference which is also effective and convenient for academic exchange and communication. Everyone interested in these fields were welcomed to join the online conference and to give comments and raise questions to the speeches and presentations.

shenzhen intelligent technology co ltd: *Digital Transformations* Daim, Tugrul U., Yalçın, Haydar, 2022-01-18 Technology is not just limited to technology companies, it impacts sectors such as healthcare, agriculture, and security. In the last few decades, countries, too, have started developing technologies or integrating technologies into their systems. As a result, all countries, regardless of size, need to understand the management of engineering and technology concepts. Digital Transformations reviews fundamentals and applications through existing and emerging technologies all around the world.

shenzhen intelligent technology co ltd: China Stock Directory ,

shenzhen intelligent technology co ltd: Smart Innovations in Communication and Computational Sciences Bijaya Ketan Panigrahi, Munesh C. Trivedi, Krishn K. Mishra, Shailesh Tiwari, Pradeep Kumar Singh, 2018-07-11 The book provides insights into International Conference on Smart Innovations in Communications and Computational Sciences (ICSICCS 2017) held at North

West Group of Institutions, Punjab, India. It presents new advances and research results in the fields of computer and communication written by leading researchers, engineers and scientists in the domain of interest from around the world. The book includes research work in all the areas of smart innovation, systems and technologies, embedded knowledge and intelligence, innovation and sustainability, advance computing, networking and informatics. It also focuses on the knowledge-transfer methodologies and innovation strategies employed to make this happen effectively. The combination of intelligent systems tools and a broad range of applications introduce a need for a synergy of disciplines from science and technology. Sample areas include, but are not limited to smart hardware, software design, smart computing technologies, intelligent communications and networking, web and informatics and computational sciences.
