What Is Figurative Language and Why It Matters

Before exploring how The Reading Mama tackles figurative language, it's important to understand what figurative language actually is. Reading Mama emphasizes that these discussions should be casual and fun, not intimidating.

This special issue is an attempt to record the state of the art of psycholinguistics research into figurative language. There are quite a number of models addressing distinct issues and aiming to solve different problems—the mark of a maturing field. Indeed, not one theory is tailored to solve all the problems. Rather, each model, while aiming at generality, also recognizes its limitation. Despite specializing in different topics, most of the theories presented here have some things in common. For one, most of them dispense with the literal/ nonliteral divide, proposing, instead, models that are capable of handling literal as well as figurative language. Some models focus on the role primary meanings play in comprehension, others shed light on context effects, and some models seem to encompass both in terms of the accumulating effects of constraints (whether linguistic or contextual).

Morgan draws on the lived experiences of enslaved African women in the sixteenth and seventeenth centuries to reveal the contours of early modern notions of trade, race, and commodification in the Black Atlantic. From capture to transport to sale to childbirth, these women were demographically counted as commodities during the Middle Passage, vulnerable to rape, separated from their kin at slave markets, and subject to laws that enslaved their children upon birth. In this way, they were central to the binding of reproductive labor with kinship, racial hierarchy, and the economics of slavery. Throughout this groundbreaking study, Morgan demonstrates that the development of Western notions of value and race occurred simultaneously. In so doing, she illustrates how racial capitalism denied the enslaved their kinship and affective ties while simultaneously relying on kinship to reproduce and enforce slavery through enslaved female bodies.
