Former

investment banker Justyn Walsh argues that the failure to properly value nature is more than just a glitch in the system, but in many ways is the system – one enabling a 'cowboy economy' that relentlessly rolls forward to new frontiers of exploitation, and gives the appearance of wealth being created when in fact much of it is being destroyed. Stark in its warnings but hopeful in its prescriptions, *Eating the Earth* argues that we need to embrace a new story – one acknowledging that humankind is a part of nature rather than apart from nature, that measures how life is enriched rather than destroyed, and that lives off nature's dividends rather than eating into its capital.

There's no reason to own another." —Library Journal *The Great Gatsby*, *The Beautiful and Damned*, *Tender Is the Night*, "The Curious Case of Benjamin Button." These works and more elevated F. Scott Fitzgerald to his place as one of the most important American authors of the twentieth century. After struggling to become a screenwriter in Hollywood, Fitzgerald was working on *The Last Tycoon* when he died of a heart attack in 1940. He was only forty-four years old. Fitzgerald left behind his own mythology. He was a prince charming, a drunken author, a spoiled genius, the personification of the Jazz Age, and a sacrificial victim of the Depression. Here, Matthew J. Bruccoli strips away the façade of this flawed literary hero. He focuses on Fitzgerald as a writer by tracing the development of his major works and his professional career. Beginning with his Midwest upbringing and first published works as a teenager, this biography follows Fitzgerald's life through the successful debut of *This Side of Paradise*, his turbulent marriage to Zelda Sayre, his time in Europe among The Lost Generation, the disappointing release of *The Great Gatsby*, and his ignominious fall. As former US poet laureate James Dickey said, "the spirit of the man is in the facts, and these, as gathered and marshalled by Bruccoli over thirty years, are all we will ever need. But more important, they are what we need."
