ben 10 ultimate alien collection: The Wilmington Ten Kenneth Robert Janken, 2015-10-22 In February 1971, racial tension surrounding school desegregation in Wilmington, North Carolina, culminated in four days of violence and skirmishes between white vigilantes and black residents. The turmoil resulted in two deaths, six injuries, more than \$500,000 in damage, and the firebombing of a white-owned store, before the National Guard restored uneasy peace. Despite glaring irregularities in the subsequent trial, ten young persons were convicted of arson and conspiracy and then sentenced to a total of 282 years in prison. They became known internationally as the Wilmington Ten. A powerful movement arose within North Carolina and beyond to demand their freedom, and after several witnesses admitted to perjury, a federal appeals court, also citing prosecutorial misconduct, overturned the convictions in 1980. Kenneth Janken narrates the dramatic story of the Ten, connecting their story to a larger arc of Black Power and the transformation of post-Civil Rights era political organizing. Grounded in extensive interviews, newly declassified government

documents, and archival research, this book thoroughly examines the 1971 events and the subsequent movement for justice that strongly influenced the wider African American freedom struggle.

ben 10 ultimate alien collection: Watching in Tongues: Multilingualism on American Television in the 21st Century James G. Mitchell, 2020-09-01 This book explores ideas and issues related to second language (L2) speakers and L2 use as portrayed on American television. It examines many examples of television depictions of L2 speakers and L2 use collected in the first decades of the 21st century. The book is divided into four three-chapter sections. "Humor and Homicide" looks at two aspects of the inclusion of L2 speakers and L2 use on television: L2 use or speakers depicted to create humor in various ways, especially through miscommunication or misunderstanding, and L2 knowledge used to solve crimes in the detective/police procedural genre. The section describes the reasons behind these phenomena, how they work, and the messages they convey to viewers. "Language Learning" explores how both adult and child language acquisition is represented and misrepresented on American television, with analysis of realistic vs. non-realistic depictions. "Subtitles and Stereotypes" explores the ways in which L2 speakers are often negatively depicted on television, their portrayal based on stereotypes. This work specifically investigates the role that subtitles play in leading viewers to such conclusions, employing the idea of language subordination, a process that devalues non-standard language while validating the norms and beliefs of the dominant group. Also considered are ways in which stereotypes are sometimes used to undermine negative perspectives on L2 speakers. "Language Attitudes and Mediation" evaluates depictions of second languages used as tools of mediation in both historical and satirical terms as well as the feelings these portrayals engender in viewers. In short, this work asks questions that have not previously been posed about L2 use on television, and it provides answers that not only shed light on issues of the representation of language learning and language use, but also constitute a lens through which American society as a whole might be understood.

ben 10 ultimate alien collection: *American Taboo* Lauren Rosewarne, 2013-08-13 America's often-unspoken morality codes make many topics taboo in the land of the free. This book analyzes hundreds of popular culture examples to expose how the media both avoids and alludes to how we derive pleasure from our bodies. Flatulence ... male nudity ... abortion ... masturbation: these are just a few of the taboo topics in the United States. What do culturally enforced silences about certain subjects say about our society—and our latent fears? This work provides a broad yet detailed overview of popular culture's most avoided topics to explain why they remain off-limits and examines how they are presented in contemporary media—or, in many cases, delicately explored using euphemism and innuendo. The author offers fascinating, in-depth analysis of the meaning behind these portrayals of a variety of both mundane and provocative taboos, and identifies how new television programs, films, and advertising campaigns intentionally violate longstanding cultural taboos to gain an edge in the marketplace.
