Exploring the Narrative Structure of The Napping House by Audrey Wood

At the heart of The Napping House by Audrey Wood lies a cumulative tale—a storytelling technique that builds upon itself with each page, adding new characters and elements in a progressive sequence. This method not only engages children's attention but also aids in memory retention and pattern recognition, critical skills in early literacy development. The repetitive, rhythmic text serves a dual purpose. On one hand, it soothes young listeners, mirroring the calming ritual of naptime.
