when was song of myself written is a question that often piques the curiosity of poetry enthusiasts, scholars, and casual readers alike. This iconic poem, regarded as one of the central works in American literature, holds a special place in the heart of many for its bold celebration of individuality and the human spirit. Understanding when Walt Whitman penned this groundbreaking piece not only provides historical context but also enriches our appreciation of its themes and literary innovation.

The Historical Context of “Song of Myself”

Before diving directly into when “Song of Myself” was written, it’s important to grasp the era in which Walt Whitman lived and created. The mid-19th century in America was marked by significant social, political, and cultural shifts. The country was expanding westward, grappling with issues of identity, and on the brink of civil war. These dynamic times fueled a new wave of artistic expression, and Whitman emerged as a revolutionary voice.

The Birth of “Song of Myself” within *Leaves of Grass*

“Song of Myself” is a central poem within Walt Whitman’s *Leaves of Grass*, a collection that he famously self-published. The first edition of *Leaves of Grass* was released in 1855. It was in this initial publication that “Song of Myself” made its debut, standing out as a bold and innovative piece that broke away from traditional poetic forms.

So, specifically, when was “Song of Myself” written? Walt Whitman composed the poem in the early 1850s, with much of the writing process taking place around 1854 and 1855. This timing coincides with

Whitman's deepening exploration of themes such as democracy, individuality, nature, and the human experience.

Understanding the Writing Process of "Song of Myself"

The creation of "Song of Myself" was not a single event but rather an evolving process. Whitman's approach to poetry was organic and fluid, reflecting his desire to capture the vastness of life and the self.

Whitman's Innovative Style and Approach

One of the reasons "Song of Myself" remains so influential is its free verse style, which was revolutionary at the time. Instead of adhering to strict rhyme schemes or meter, Whitman's poem flows with the cadence of natural speech. This stylistic choice highlights the personal and universal themes he explores, making the poem feel like a direct conversation with the reader.

The poem's expansive length and structure also indicate that Whitman worked on it over a period, refining and expanding it as his ideas developed. The original 1855 version of **Leaves of Grass** contained only 12 poems, with "Song of Myself" being the longest. Later editions saw Whitman revising and adding to the poem, reflecting his ongoing creative journey.

The Influence of Whitman's Life Experiences

When considering when "Song of Myself" was written, it's helpful to look at Whitman's personal experiences during that time. In the early 1850s, he was living in Brooklyn, New York, working as a journalist and teacher. These roles exposed him to a diverse array of people and ideas, which deeply influenced his poetic vision.

Whitman's encounters with the bustling urban environment, combined with his fascination with nature and the human body, fed into the vivid imagery and themes found in "Song of Myself." The poem's celebration of the self is also tied to Whitman's belief in the democratic spirit of America, a concept that was particularly resonant during this pre-Civil War period.

The Evolution of "Song of Myself" Through Editions

Understanding when "Song of Myself" was written also involves looking at how the poem changed over time. Walt Whitman was known for revising *Leaves of Grass* throughout his life, with "Song of Myself" undergoing several transformations.

From 1855 to Later Versions

- **1855 Edition:** The poem first appeared as the opening piece in the inaugural edition of *Leaves of Grass*, containing 52 sections.
- **1856 Revision:** Whitman expanded the poem with additional sections, adjusting lines to sharpen his themes.
- **1871-72 Editions:** Significant revisions took place, reflecting Whitman's maturity and the impact of the Civil War, which influenced his perspective on unity and mortality.
- **1881 and Beyond:** The poem continued to evolve, with Whitman refining its language and structure until his death in 1892.

These changes highlight that while the core of "Song of Myself" was written in the early 1850s, it was a living work, growing alongside Whitman's own life and the shifting American landscape.

****When Was "Song of Myself" Written? An Analytical Exploration****

when was song of myself written is a question that invites a deeper understanding not only of the timeline surrounding this seminal piece of American poetry but also of its cultural and literary significance. Walt Whitman's "Song of Myself" stands as a cornerstone of American literature, embodying the spirit of individualism and democratic ideals that defined a transformative era in the United States. The precise dating of its composition, its publication history, and the evolution of its content reveal much about the poet himself and the context in which the poem emerged.

The Origins of "Song of Myself" and Its Writing Period

"Song of Myself" was first published in 1855 as a central part of Walt Whitman's groundbreaking collection **Leaves of Grass**. However, pinpointing exactly when it was written requires an understanding of Whitman's creative process and the historical backdrop of mid-19th century America.

Whitman began working on the poem in the early 1850s, a period marked by his move to Brooklyn and his engagement with emerging democratic and transcendentalist ideas. The poem's initial manuscript likely took shape between 1854 and 1855, culminating in its inclusion in the first edition of **Leaves of Grass**, which consisted of just twelve untitled poems, with "Song of Myself" serving as the unofficial centerpiece. Whitman himself described the poem as a "barbaric yawp," capturing his intent to break free from traditional poetic forms and to voice an American identity distinct from European influences.

The composition period coincided with a time of intense social and political change in the United States, including debates over slavery, expanding frontiers, and shifting cultural norms. These influences permeate the text, making the poem a living document of its era.

Historical Context and Its Impact on Composition

Understanding when "Song of Myself" was written necessitates an investigation into the 1850s, a decade rife with tension and transformation. The era's spirit of innovation and rebellion against established conventions is mirrored in Whitman's poetic style and thematic choices.

The poem's democratic ethos, celebration of the self, and embrace of diversity were radical at a time when American society was grappling with its identity. Whitman's work anticipated the impending Civil War and the struggles for abolition and civil rights. This contextual background helps explain why Whitman's writing process was not merely personal but also a response to the collective American consciousness.

Evolution Through Editions: Revisions and Expansions

One of the unique aspects of “Song of Myself” is its fluidity across editions of **Leaves of Grass**. The poem was not a static work confined to a single moment in time but evolved alongside Whitman’s own life and the changing American landscape.

The first edition in 1855 contained twelve untitled poems, with “Song of Myself” as an unnumbered piece. Subsequent editions, notably the 1856 and 1860 versions, saw Whitman expand the poem and refine its language. By the 1881 edition, “Song of Myself” had been divided into 52 sections, reflecting Whitman’s ongoing commitment to perfecting his vision.

This iterative process highlights the difficulty of assigning a single date to the poem’s creation. Instead, “Song of Myself” represents a living, breathing work that grew over three decades, adapting to historical events such as the Civil War and personal experiences including Whitman’s service as a nurse during the conflict.

The Significance of the 1855 Publication

While Whitman revised the poem extensively, the 1855 publication marks the definitive moment when “Song of Myself” entered public consciousness. This edition was self-published and initially sold only a few hundred copies, but it laid the foundation for Whitman’s legacy.

The 1855 version’s groundbreaking style—free verse, candid exploration of the human body and spirit, and rejection of conventional poetic constraints—challenged readers and critics alike. It set a precedent for American poetry by placing the individual self at the center of poetic expression, a concept that was revolutionary at the time.

Literary Features and Themes Linked to Its Writing Period

The period during which “Song of Myself” was written is reflected in its literary features and thematic concerns. Whitman’s innovative use of free verse broke from the strict meter and rhyme schemes dominant in 19th-century poetry, signaling a new direction in American letters.

Themes such as democracy, spirituality, nature, and the celebration of the common man resonate with the zeitgeist of the 1850s. The poem’s expansive voice, which embraces all aspects of existence, can be read as an articulation of the American experiment in freedom and equality, even as those ideals were contested and incomplete.

Influence of Transcendentalism and Contemporary Thought

Whitman’s writing was undeniably influenced by transcendentalist thinkers like Ralph Waldo Emerson, who emphasized the unity of the individual and nature, as well as spiritual self-reliance. “Song of Myself” echoes these ideas, promoting a poetic identity that is at once personal and universal.

Moreover, the poem’s timing aligns with a broader cultural movement toward exploring new spiritual and philosophical ideas. The 1850s saw an increasing interest in Eastern philosophies and alternative religious expressions, all of which informed Whitman’s poetic vision.

when was song of myself written: *Whitman Illuminated* Walt Whitman, 2014-11-01 Walt Whitman's iconic collection of poems, *Leaves of Grass*, has earned a reputation as a sacred American text. Whitman himself made such comparisons, going so far as to use biblical verse as a model for his own. So it's only appropriate that artist and illustrator Allen Crawford has chosen to illuminate - like medieval monks with their own holy scriptures - Whitman's masterpiece and the core of his poetic vision, 'Song of Myself'. Crawford has turned the original sixty-page poem from Whitman's 1855 edition into a sprawling 234-page work of art. The handwritten text and illustrations intermingle in a way that's both surprising and wholly in tune with the spirit of the poem - they're exuberant, rough and wild. *Whitman Illuminated: Song of Myself* is a sensational reading experience, an artefact in its own right and a masterful tribute to one of America's greatest poets.
