Well known are the assassinations of Abraham Lincoln, John F. Kennedy, William McKinley, and Martin Luther King Jr., and their long-lasting consequences. History, however, is littered with lesser-known gunshots that have had equally echoing outcomes. Some were small mistakes or misjudgments, others intentional acts that sparked events documented in our history textbooks. A single bullet serves as the catalyst for each of the stories in this book. We may or may not know who fired it but we know each bullet's end point and the effects it had on America's trajectory: the wars, social movements, and political and economic paradigm shifts. The names of those involved may not to many be recognizable but the events their acts precipitated are etched in American history.

give me liberty eric foner volume 2: Making JFK Matter Paul H. Santa Cruz, 2015-05-15 In Making JFK Matter, Paul Santa Cruz examines how popular memory of John F. Kennedy has been used politically by various interest groups, primarily the city of Dallas, Lyndon Johnson, and Robert Kennedy, as well as how the memory of Kennedy has been portrayed in various museums. Santa Cruz argues that we have memorialized JFK not simply out of love for him or admiration for the ideals he embodied, but because invoking his name carries legitimacy and power. Memory can be employed to accomplish particular ends: for example, the passage of long overdue civil rights legislation, or even successfully running for political office. Santa Cruz demonstrates the presence and use of popular memory in an extensive analysis of what was being said, and by whom, about the late president through White House memoranda and speech material, museum exhibits (such as the Sixth Floor Museum in Dallas and the JFK Presidential Library and Museum in Boston), public

correspondence, newspapers and periodicals of the time, memoirs, and archival research. He also explores how JFK has been memorialized in films such as Bobby, JFK, and Thirteen Days. Written in an accessible manner to appeal to both historians and the general public, Making JFK Matter tells us much of how we have memorialized Kennedy over the years.

give me liberty eric foner volume 2: Fifteen Years of Fear Jared D. Williams, 2018-11-30

The era immediately following World War II is usually remembered as an idyllic period in the United States of America. Most people look back at that time as an era of malt shops, school dances, and innocence. In reality, the fifteen years following WWII were some of the most dangerous the nation ever faced. Lurking in minds of all Americans was the constant fear of a surprise attack from the Soviet Union. War with the communist nations of the world appeared to be imminent. At this time, a new class of leaders emerged to guide the United States. The Cold War struggle brought out the best in some and the worst in others. Men like Truman, MacArthur, Eisenhower, Nixon, McCarthy, and Kennedy dominated the headlines and the political landscape. This is the story of the opening chapter of the American Cold War story and the men who piloted the ship of state during that most dangerous of times.
