**jamaican historical society bulletin jamaica historical society: Democracy’s Foot Soldiers** Reena N. Goldthree, 2025-11-18 A captivating history of the Afro-Caribbean soldiers who fought for the British Empire in World War I and their transnational campaign for equality Following the outbreak of World War I, tens of thousands of men from the British Caribbean volunteered as soldiers to fight on behalf of the British Empire. Despite living far from the bloody battlefields of Europe, these men enlisted for a variety of reasons—to affirm their masculine honor, pursue economic mobility, or enhance their standing as colonial subjects. Democracy’s Foot Soldiers offers a sweeping account of the British West Indies Regiment, the military unit established in 1915 for Caribbean volunteers, documenting their service during the war and their dramatic battles for racial equality and fair treatment in the armed forces and on the home front. Drawing on previously overlooked archival sources in the Caribbean, England, and United States, Reena Goldthree demonstrates how wartime military mobilization spurred heightened demands for social, economic, and political reform in the colonial Caribbean. She recovers the forgotten contributions of Afro-Caribbean troops during the war, following their harrowing journeys to military camps in Europe, Africa, and the Middle East. Goldthree chronicles how, after the war, soldiers, their families, and their civilian allies launched their own “war for democracy,” strategically using the rhetoric of imperial patriotism—rather than the more militant language of anticolonial nationalism—to fight for respect and equality. Democracy’s Foot Soldiers places these soldiers at the forefront of popular struggles over race, labor, and economic justice in the early twentieth-century Caribbean, showing that the war years were a crucial period of political ferment and mass mobilization in the region.

No unitary explanation can capture the varied experiences of black people in diaspora. Knowledge of individual societies is illuminated by the study and comparison of other cultural histories. This volume, growing out of the Comparative History of Black People in Diaspora Symposium held at Michigan State University, elaborates the profound relationship between curriculum and pedagogy.Crossing Boundaries embraces the challenge to probe differences embedded in Black ethnicities and helps to discover and to weave into a new understanding the threads of experience, culture, and identity across diasporas. The book cites examples of each such case which the author worked on. (However, cases concerning (i) the Middle East and (ii) war, disaster and disintegration, were not included here, because the author’s last two books dwelt specifically upon them.) Amongst others, this book includes designs from the following towns: • Urban conservation: St Petersburg, Russia; Greifswald, Germany; Banska Stiavnica, Slovakia; • Cultural tourism: St Ann’s Bay, Jamaica; • Persistencies of Form: Telford; Thamesmead, London; Tampere, Finland; Silvertown Bridge, London; Herouville Saint Clair, Caen; Tete Defense, Paris. **jamaican historical society bulletin jamaica historical society:** *Material Worlds* Barbara J. Heath, Eleanor E. Breen, Lori A. Lee, 2017-02-17 Material Worlds examines consumption from an archaeological perspective, broadly exploring the intersection of social relations and objects through the processes of production, distribution, use, reuse, and discard. Interrogating individual objects as well as considering the contexts in which acts of consumption take place, a range of case studies present the intertwined issues of power, inequality, identity, and community as mediated through choice, access, and use of the diversity of mass-produced goods. Key themes of this innovative volume include the relationship between colonial, political and economic structures and the practices of consumption, the use of consumer goods in the construction and negotiation of identity, and the dialectic between strategies of consumption and individual or community choices. Situating studies of consumerism within the field of historical archaeology, this exciting collection reflects on the interrelationship between the material and ideological aspects of culture. With a focus on North America from the seventeenth through the early twentieth centuries, Material Worlds is an important examination of consumption which will appeal to scholars with interests in colonialism, gender and race, as well as those engaged with the material culture of the emergent modern world.

**jamaican historical society bulletin jamaica historical society:** The Earliest Inhabitants Lesley-Gail Atkinson, 2006 The Earliest Inhabitants aims to promote Jamaican Taínan archaeology and highlight the diverse research conducted on the island's prehistoric sites and artefacts. Of the fourteen papers in this volume, six are reprints of seminal articles that are not widely available and eight are based on recent archaeological research. The chapters are organized by thematic divisions that reflect the most important areas of research: Assessment and Excavations of Taíno Sites looks at the various archaeological investigations across the island; Taíno Exploitation of the Natural Resources examines how the Taínos took advantage of the natural environment to fulfil their needs; Analysis of Taíno Archaeological Data highlights research conducted on various artefacts; and Taíno Art Forms focuses specifically on evidence of Taíno cave art and its impact on the interpretation of the Jamaican Taíno livelihood. In her introduction, Lesley-Gail Atkinson explains, Jamaican prehistory is regarded as one of the least studied Caribbean disciplines. That is not necessarily the case; the fact is that published Jamaican archaeological research has not had sufficient international circulation. This has resulted in misconceptions about lack of scope, research activities and information on the Jamaican Taíno. This volume seeks to redress this lack: invaluable in its own right as a collection of distinguished scholarship, The Earliest Inhabitants is remarkable, too, for being the first compilation on the Jamaican Taínos since 1897. This collection will appeal to a wide audience of archaeologists, historians, students of archaeology and anyone interested in Jamaica's history and archaeology
