They are also a cognitive tool which helps people to understand the world and to express their world. As they are the basis on which our worldview and even our everyday speech is founded, the question must be posed as to whether utterances containing tropes can be said to be true. This has been an epistemological problem since Nietzsche expressed his doubts about the possibility that figurative language could give access to truth. However, since then research has paid little attention to this question. -18 papers by linguists, philosophers, psychologists and literary scholars have been collected in this volume. Their 21 authors use various approaches or paradigms in order to define metaphor, metonymy, synecdoche, irony, euphemism, antonomasia and hyperbole and find an answer to the crucial epistemological

questions, namely whether and to what extent utterances containing tropes can be said to be true or false.

50 great american short stories milton crane: The Story of Narrative Preaching Mike Graves, 2015-03-02 Forty years ago the one thing that could be said about sermons was they were biblical. Unfortunately, they were sometimes tedious too. Narrative preaching aimed to fix that, advocating for a dynamic experience of the text over against a static lecture. Preaching could be like the parables of Jesus, intriguing and compelling. The Story of Narrative Preaching is the story of seven students who are enrolled in Professor Freeman's preaching course. Once a new trend, narrative preaching is now older than most of them. As Professor Freeman notes, two things went wrong with narrative styles: over time the church became biblically and theologically illiterate, and the promised stress on experience didn't always measure up to the weight of the gospel. Readers are invited to sit in on the class, to reflect on the expository nature of preaching and to experience the stories of some modern storytellers--Flannery O'Connor, Alice Walker, and others--to see what they might teach us about narratives of depth. In the end we discover what may be the most important word in preaching.

Editors Alastair Hunt and Stephanie Youngblood shape their collection to provocatively challenge the assumption, rife throughout the humanities, that life needs to be cultivated, affirmed, and redeemed. The editors and their contributors explore how we might be better off daring to think ethics and politics, as well as the project of the humanities, in more radical terms, as a refusal to choose life. What forms of equality and freedom might emerge if we did not organize being-together under signs of life? Taken together, the essays in *Against Life* mark an important turn in the ethico-political work of the humanities.
