revolves around a few fundamental chords that are easy to learn and transition between. Most versions of the song use the key of G major, which is friendly for guitar players.

Here are the commonly used chords:

- **G Major (G)**
- **C Major (C)**
- **D Major (D)**
- **A Minor (Am)**

These chords form the backbone of the song's verse and chorus sections.

How to Play Each Chord

- **G Major:** Place your second finger on the third fret of the low E string, first finger on the second fret of the A string, and third finger on the third fret of the high E string.
- **C Major:** Position your ring finger on the third fret of the A string, middle finger on the second fret of the D string, and index finger on the first fret of the B string.
- **D Major:** Place your index finger on the second fret of the G string, middle finger on the second fret of the high E string, and ring finger on the third fret of the B string.

Playing Tips for Worship Settings

When playing "Change My Heart Oh God" in a worship context, it's not just about playing the chords correctly – it's about creating an atmosphere. Here are some tips to enhance your performance:

Focus on Rhythm and Strumming Patterns

The song's gentle and reflective mood is best served with soft, steady strumming. A simple down-down-up-up-down-up pattern works well, but feel free to adapt based on the congregation's energy. For beginners, even slow downstrokes can be effective.

Use Capo to Match Vocal Range

Many worship leaders use a capo to adjust the key to fit the singer's vocal range. Placing a capo on the 2nd or 3rd fret and playing the same chord shapes can make it easier for worship teams to sing comfortably without changing fingerings.

Incorporate Dynamics

Starting softly and gradually increasing volume can build emotional intensity. Use palm muting for verses to create a subdued sound and then open strums for the chorus to lift the energy.

Advanced Chord Variations and Embellishments

For musicians who want to add a bit more texture, there are some chord variations that can enrich the sound without complicating the song.

Adding Suspended and Seventh Chords

- **Gsus4 (G suspended 4th)**: Replace a regular G chord with Gsus4 to add a subtle tension before resolving back to G. This is done by adding the C note on the first string (first fret) while playing G.
- **Cmaj7**: Swap out C major with Cmaj7 by lifting your ring finger off the A string, giving a more open, airy sound.
- **D7**: Instead of a plain D, try D7 by placing your pinky on the third fret of the B string.

These embellishments can make your playing sound more professional and emotionally expressive.

Lyrics and Chord Integration

Here's a simple chord and lyric layout to help you follow along:

[G] Change my heart, O God,
[C] Make it ever true.
[G] Change my heart, O God,
[D] May I be like You.

[G] You are the potter,
[C] I am the clay.

[G] Mold me and make me,
[D] This is what I pray.

Practicing with the lyrics will improve your timing and help you lead worship with confidence.
