Code Vein Cathedral Walkthrough: Step-by-Step Guide

Entering the Cathedral

Once you reach the Cathedral, you'll notice that the entrance is guarded by a few minor enemies, perfect for warming up your combat skills. Make sure to take your time clearing these foes to avoid being overwhelmed later. Exploring the immediate area thoroughly is vital — there are useful items scattered around like healing herbs and ammo that will assist you in tougher battles ahead.

Exploring the Main Hall

The Cathedral's Main Hall is a vast open space with multiple levels and staircases. Be cautious here: enemies can attack from above or below, and ranged foes often take advantage of this verticality. As you

progress, keep an eye out for breakable objects and hidden paths. Some walls or floors might conceal shortcuts or valuable loot.

A good tip is to use your Blood Veil abilities to scout ahead and deal with threats silently if possible. Using stealth can prevent unnecessary fights that drain your resources.

Facing the Cathedral Boss: The Bloodied Dove

One of the most memorable encounters in the Cathedral is with the boss known as the Bloodied Dove. This formidable foe demands patience and strategic thinking. The boss uses swift, aggressive attacks combined with powerful area-of-effect moves that can catch unprepared players off guard.

To defeat the Bloodied Dove effectively:

- Learn its attack patterns carefully; dodge timing is crucial.
- Use the environment to your advantage by keeping obstacles between you and the boss.
- Manage your stamina wisely to avoid being caught mid-attack.
- Consider summoning allies or NPCs to help divide the boss's attention.

After defeating the Bloodied Dove, you'll gain access to new areas and critical story progression.
