dr suess hooray for diffendoofer day: *How to Read Like an Anti-Fascist* Annette Wannamaker, 2025-06-03 On the urgent need to promote critical reading skills amidst rising authoritarianism Children's author Philip Pullman famously said that "There are some themes, some subjects, too large for adult fiction; they can only be dealt with adequately in a children's book." While the recent rise of fascist ideology in the United States might seem a subject too large and adult to be dealt with in literature for children or teens, Annette Wannamaker proposes in *How to Read Like an Anti-Fascist* that there are books aimed at future generations which critique and counter fascist propaganda and mythmaking. Works of literature can reflect fascist ideology and promote it as well, but Wannamaker proposes that some books also offer tools for understanding it. Books written for beginners can introduce readers to complex concepts, break big ideas into manageable parts, and teach readers how to read the world outside of the book. Antifascist books are ones that analyze fascistic rhetoric and storytelling, educate about America's long history of authoritarianism, and highlight various facets of fascism such as scapegoating others and reasserting patriarchal power. From "The Emperor's New Clothes" and the tales of Superman to Mildred Taylor's *Roll of Thunder, Hear My Cry*, the 1619 Project and contemporary works such as *All Boys Aren't Blue* and *Donald Builds the Wall*, Wannamaker shows how the ethos of authoritarianism is characterized by a strict hierarchy that places children at its very bottom. In doing so, she argues convincingly that books written for young people can provide a particular view from the bottom, a perspective well-suited to interrogating systems of power.

What are the foundational best practices of a truly inclusive learning community? How does one create such a community? The author pulls together, in an organized way, a three-block model of universal design for learning (UDL) and suggests a step-by-step approach for implementing it. This framework includes: Block One, Social and Emotional Learning: details ways to build compassionate learning communities (K-12) in which all students feel safe and valued, and develop a positive self-concept, sense of belonging, and respect for diverse others. Block Two, Inclusive Instructional Practice: includes a framework for planning units from K-12, and explains instructional and management practices for teaching, assessing, grading, and reporting in UDL Classrooms. Block Three, Systems and Structures: suggests strategies for creating inclusive learning communities, and explores ways in which resource teachers, student services personnel, and school administrators can support and create socially and academically inclusive schools and classrooms. The three-block model of UDL can empower educators with the knowledge, skills, and confidence required to teach diverse learners in the same classroom--including those who have previously been excluded.
