It was then that I first realized that life wasn't the fairytale world that I thought it was. As I saw my world crumble down, I had no choice but to turn a negative into a positive. Remembering the advice from a person whom I had never met telling me to believe in myself, never give up, and to never take the easy way out, I knew that I could battle through anything and win in the long run. Little did I know, that present was the opening to my future and to my life's goal that I was out to achieve.
