Debbie Lisle argues that the formulations of genre, identity, geopolitics and history at work in contemporary travel writing are increasingly at odds with a cosmopolitan and multicultural world in which 'everybody travels'. Despite the forces of globalization, common stereotypes about 'foreignness' continue to shape the experience of modern travel. *The Global Politics of Contemporary Travel Writing* is concerned with the way contemporary travelogues engage with, and try to resolve, familiar struggles about global politics such as the protection of human rights, the promotion of democracy, the management of equality within multiculturalism and the reduction of inequality. This is a thoroughly interdisciplinary book that draws from international relations, literary theory, political theory, geography, anthropology and history.

**where was tim cahill born:** *Killing Spanish* L. Sandin, 2016-02-19 In this intelligent monograph for women's studies, literature and Latin American studies, Lyn Di Iorio Sandin asserts that there is a significant ambivalence surrounding identity that is present in the works of Latino writers such as Cristina Garcia, Edward Rivera, and Abraham Rodriguez. Sandin incorporates the theories of allegory and 'double identity' to talk about fragmentation of the Latino psyche. What Sandin finds compelling is that in all of the works of this diverse group of writers, there is a common theme of anxiety about origins that manifests itself through the symbols of dead women, ghosts, or madwomen. Using specific examples from literature ranging from Cuban American Cristina Garcia's *The Aguero Sisters* to Puerto Rican Rosario Ferre's *Maldito amor*, Sandin finds that fragmented ethnic identification is an area that is just beginning to be explored within the analysis of U.S. Latino fiction.

**where was tim cahill born: Practical Regulation of the Mobility of Sportsmen in the EU Post Bosman** Stefaan Van den Bogaert, 2005-01-01 Sport is recreational, social, educational, healthful, and cultural. It has always been all of these things. Perhaps also it has always been political. In recent years, however, it has become something else besides: economic. Nowadays a lot of money is invested in sport, and sporting competitions often generate enormous amounts of revenue. This has entailed serious repercussions, especially for the relations between individual sportsmen/sportswomen and the sporting clubs and federations that act as brokers for their careers. Into this protected area for decades a closed shop now come the European institutions, especially the European Court of Justice and the European Commission, with the declared intention of ensuring respect for the exigencies of Community law while at the same time protecting the specificity and the integrity of sport. This important book presents an in-depth analysis of the viability under Community law of traditional sports regulations such as transfer rules and nationality clauses both sets of rules seriously compromised by the Bosman case of 1995. The author asks in particular whether certain rules elaborated by sporting associations can withstand the test of compatibility with the free movement provisions of the EC Treaty. In the light of Bosman, he also rigorously investigates: whether valuable arguments exist for keeping certain sporting rules and practices entirely outside the scope of the EC Treaty; and whether the private nature of sporting clubs constitutes a stumbling block for the application of the relevant free movement rules. Practical Regulation of the Mobility of Sportsmen in the EU Post Bosman comes at a moment when clarification of where this complex and contentious matter currently lies is essential if we are to gauge where it is going. The topic is of special and increasing interest, as official declarations on sport were attached to the Treaties of both Amsterdam and Nice. And, if the draft Constitution for Europe actually enters into force, sport will even become an official area of Union policy. This trend confirms the value and significance of this ground-breaking book for practitioners, policymakers, and regulators in the burgeoning field of sports law. European Monographs 48
