history of massey ferguson tractors: *The Big Book of Massey Tractors* Robert N. Pripps, 2006 This is the first full-scale history of one of the largest farm tractor manufacturers of all time, peppered with pictures of Massey-Harris, Ferguson, and Massey Ferguson's historic models, collectibles, sales memorabilia, and advertisements from old farm magazines. The Big Book of Massey Tractors tells the story of the mergers and machines that formed Massey Ferguson over several decades, and—because these machines dominated Canadian farms for almost a century—in many ways it also tells the story of Canadian agriculture. Robert Pripps, a longtime tractor aficionado, describes Massey Ferguson's battle with Ford over dominance of the farm tractor industry—a battle the company eventually won, remarkably enough, in view of its initial abject market failure with tractors. From the company's beginnings in 1891, to its 1953 merger with the Ferguson tractor company, to its current ownership by Allis-Gleaner Company (AGCO), Masseys have played a large role in our agricultural history. The Big Book of Massey Tractors celebrates that role and showcases the machines that have helped turn the earth for over a hundred years.

history of massey ferguson tractors: Nordic Tractor, The: The History and Heritage of Volvo, Valmet and Valtra Justin Roberts, 2017-11-07 The Nordic Tractor traces the history of tractor production in Sweden and Finland. The story goes back over 200 years to the 19th century when the industrial revolution was sweeping across Britain, and Sweden wanted to establish their own manufacturing powerhouses. This was an exciting and fast moving time for engineering and this book traces the ups, downs and eventual demise of some of the first manufacturers working to serve the particular needs of the agricultural and forestry industries in this densely forested and mountainous region. It then looks in depth at the companies who emerged from this, who learnt from their own and others' mistakes and built on the widespread technological advances of the time to build up names for themselves in Northern parts of Europe. Today, Valtra - now owned by AGCO - stands proudly as the last remaining agricultural tractor maker in Scandinavia, but The Nordic Tractor shows where their roots lie in the establishment and history of companies such as Bolinder, Munktells, Volvo and Valmet, who all stood out as being major players in the Nordic region. Including over 100 photos, many of which have been previously unpublished, this book will appeal to those with a specific interest in Nordic tractors, Nordic engineering and general Nordic history as well as the general tractor enthusiast.

history of massey ferguson tractors: *The Social History of Agriculture* Christopher Isett, Stephen Miller, 2016-11-09 This innovative text provides a compelling narrative world history through the lens of food and farmers. Tracing the history of agriculture from earliest times to the present, Christopher Isett and Stephen Miller argue that people, rather than markets, have been the primary agents of agricultural change. Exploring the actions taken by individuals and groups over time and analyzing their activities in the wider contexts of markets, states, wars, the environment, population increase, and similar factors, the authors emphasize how larger social and political forces inform decisions and lead to different technological outcomes. Both farmers and elites responded in ways that impeded economic development. Farmers, when able to trade with towns, used the revenue to gain more land and security. Elites used commercial opportunities to accumulate military power and slaves. The book explores these tendencies through rich case studies of ancient China; precolonial South America; early-modern France, England, and Japan; New World slavery; colonial Taiwan; socialist Cuba; and many other periods and places. Readers will understand how the promises and problems of contemporary agriculture are not simply technologically derived but are the outcomes of decisions and choices people have made and continue to make.
