judge judy interview 60 minutes: Justice Performed Sarah Kozinn, 2015-01-29 Justice Performed: Courtroom TV Shows and the Theaters of Popular Law is the first study of the reality TV genre to trace its theatrical legacy, connecting the phenomenon of the daytime TV shows to a long history of theatrical trials staged to educate audiences in pedagogies of citizenship. It examines how

judge TV fulfills part of law's performative function: that of providing a participatory spectacle the public can recognize as justice. Since it debuted in 1981 with *The People's Court*, which made famous its star jurist, Judge Joseph A. Wapner, dozens of judges have made the move to television. Unlike the demographics in actual courts, most TV judges are non-white men and women hailing from diverse cultural and racial backgrounds. These judges charge their decisions with personal preferences and cultural innuendos, painting a very different picture of what justice looks like. Drawing on interviews with TV judges, producers and production staff, as well as the author's experience as a studio audience member, the book scrutinizes the performativity of the genre, the needs it meets and the inherent ideological biases about race, gender and civic instruction.

judge judy interview 60 minutes: *The Rulebreaker* Susan Page, 2025-04-15 A "smart, juicy, deeply reported" (Katie Couric) biography of the most successful female broadcaster of all time—Barbara Walters—a woman whose personal demons fueled an ambition that broke all the rules and finally gave women a permanent place on the air, written by bestselling author Susan Page.

Barbara Walters was a force from the time TV was exploding on the American scene in the 1960s to its waning dominance in a new world of competition from streaming services and social media half a century later. She was not just a groundbreaker for women (Oprah announced when she was seventeen that she wanted to be Barbara Walters), but also expanded the big TV interview and then dominated the genre. By the end of her career, she had interviewed more of the famous and infamous, from presidents to movie stars to criminals to despots, than any other journalist in history. Then at sixty-seven, past the age of many female broadcasters found themselves involuntarily retired, she pioneered a new form of talk TV called *The View*. She is on the short list of those who have left the biggest imprints on television news and on our culture, male or female. So, who was the woman behind the legacy? In *The Rulebreaker*, Susan Page conducts 150 interviews and extensive archival research to discover that Walters was driven to keep herself and her family afloat after her mercurial and famous impresario father attempted suicide. But she never lost the fear of an impending catastrophe, which is what led her to ask for things no woman had ever asked for before, to ignore the rules of misogynistic culture, to outcompete her most ferocious competitors, and to protect her complicated marriages and love life from scrutiny. Page breaks news on every front—from the daring things Walters did to become the woman who reinvented the TV interview to the secrets she kept until her death. This is the “stunning” (Norah O’Donnell), “brilliantly written” (Andrea Mitchell) account of the woman who knew she had to break all the rules so she could break all the rules about what viewers deserved to know.

The Tea Party was one of the major characters driving this story, changing the tone, tenor, and shape of the political landscape, one that this book sees as a product of media branding. Beyond the creation of the Tea Party, this project also investigates what the mass-mediated construction of the Tea Party tells us about the current media and cultural moment, specifically the role of journalism in a Web 2.0 age and contemporary American notions of democracy, citizenship, and belonging.

judge jury interview 60 minutes: Not Working Alejandra Marchevsky, Jeanne Theoharis, 2006-04-10 *Not Working* chronicles the devastating effects of the 1996 welfare reform legislation that ended welfare as we know it. For those who now receive public assistance, “work” means pleading with supervisors for full-time hours, juggling ever-changing work schedules, and shuffling between dead-end jobs that leave one physically and psychically exhausted. Through vivid story-telling and pointed analysis, *Not Working* profiles the day-to-day struggles of Mexican immigrant women in the Los Angeles area, showing the increased vulnerability they face in the welfare office and labor market. The new “work first” policies now enacted impose time limits and mandate work requirements for those receiving public assistance, yet fail to offer real job training or needed childcare options, ultimately causing many families to fall deeper below the poverty line. *Not Working* shows that the new “welfare-to-work” regime has produced tremendous instability and insecurity for these women and their children. Moreover, the authors argue that the new politics of welfare enable greater infringements of rights and liberty for many of America's most vulnerable and constitute a crucial component of the broader assault on American citizenship. In short, the new welfare is not working.

judge jury interview 60 minutes: *Passionate Ambivalence* Tim Clairmont, 2024-01-04 When I first started writing this book I typed an introduction trying to explain why everyone should read it.

I wanted to let all the salespeople of the world know why they should care about their customers, and I wanted to convince them that the top salespeople are the ones who care about their customers the most. While I still believe that this is true, I don't know it for sure. Regardless, I can say with confidence that this book is not for salespeople who don't care about their customers. If you don't care about your customers, please don't read any further. In fact, if you don't care about your customers, please consider a different career. It's people like you who stay in sales for the wrong reasons that give salespeople a bad reputation. If you do care about your customers, then this book is about how you can show them that you care even more. This is about how you can help them in their own personal journey toward happiness. The old-school ways of selling where you try to manipulate and cajole your prospective client into buying something are truly obsolete. We live in a time when people have endless information at their fingertips. They care what you think, but they know much of the basic information themselves. Most of all, they want a salesperson they can trust. If you are looking for more manipulative sales tactics to figure out how to take advantage of more people and "close more sales," then please don't continue to read this book. If you are interested in helping to promote what I believe to be one of the most noble professions on the planet, that of an ethical salesperson, then please read further. And, share what you read. I want everyone to be happier. That is why I wake up each morning. That is why I run my wealth management firm. That is why I wrote this book. I hope that is why you are reading it.
