the art of seduction epub: Style and Seduction Elana Shapira, 2016-05-22 A recent surge of interest in Jewish patronage during the golden years of Vienna has led to the question, Would modernism in Vienna have developed in the same fashion had Jewish patrons not been involved? This book uniquely treats Jewish identification within Viennese modernism as a matter of Jews active fashioning of a new language to convey their aims of emancipation along with their claims of cultural authority. In this provocative reexamination of the roots of Viennese modernism, Elana Shapira analyzes the central role of Jewish businessmen, professionals, and writers in the evolution of the city's architecture and design from the 1860s to the 1910s. According to Shapira, these patrons negotiated their relationship with their non-Jewish surroundings and clarified their position within Viennese society by inscribing Jewish elements into the buildings, interiors, furniture, and design objects that they financed, produced, and co-designed. In the first book to investigate the cultural

contributions of the banker Eduard Todesco, the steel tycoon Karl Wittgenstein, the textile industrialist Fritz Waerndorfer, the author Peter Altenberg, the tailor Leopold Goldman, and many others, Shapira reconsiders theories identifying the crisis of Jewish assimilation as a primary creative stimulus for the Jewish contribution to Viennese modernism. Instead, she argues that creative tensions between Jews and non-Jews - patrons and designers who cooperated and arranged well-choreographed social encounters with one another - offer more convincing explanations for the formation of a new semantics of modern Viennese architecture and design than do theories based on assimilation. This thoroughly researched and richly illustrated book will interest scholars and students of Jewish studies, Vienna and Viennese culture, and modernism.

They investigate the theme of the Conference, Culture of Seduction [the seduction of culture] and look at Seduction as in "deception", not sexual enticement, but as a mechanism of attraction and appeal which has often been the case in many communication strategies and approaches used by mass and popular culture. Seduction has historic and increasing agency in visual communication—the urgency to entice viewers is ever more powerful in difficult economic times, in an increasingly hyper-real world – and designers are led to become exceedingly complicit in its strategies. The contributions here cover a range of approaches from theoretical aspects of seduction in verbal and nonverbal communication, public spaces, design and meaning, seductive strategies, and advertising design, as well as fashion representations and packaging design.

the art of seduction epub: *When We Spoke to the Dead* Ilise S. Carter, 2025-09-16 Ghosts spoke. Women listened. Everything changed. It began with whispers in a dimly lit room. In the 1840s, the Fox Sisters—and the legions of mediums they inspired—ignited the Spiritualist movement that swept through Victorian parlors and presidential campaigns alike. Contacting the dead wasn't merely a parlor trick: It was a political statement, a declaration of self that still echoes. Séances attracted suffragists and scientists, skeptics and charlatans, giving women a voice in a society that often refused to hear them. But as Spiritualism surged, it also blurred the lines between faith, fraud, feminism, and financial opportunity, drawing figures as varied as Harry Houdini, Victoria Woodhull, and even modern self-help gurus into its ever-expanding orbit. From wartime séances to the rise of televangelists, from Victorian ghosts to goop-approved wellness rituals, *When We Spoke to the Dead* unearths the forgotten roots of today's obsession with manifestation, mysticism, and the power of

belief. Exploring America's deep-seated hunger for the unseen—whether through politics, personal empowerment, or grief—this book traces how the supernatural, once condemned as heresy, became the ultimate commodity. Step inside the séance room. The spirits have been waiting.

the art of seduction epub: Light as Experience and Imagination from Medieval to Modern Times David S. Herrstrom, 2022-11-21 In Light as Experience and Imagination from Medieval to Modern Times, David S. Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times. The true subject of the book is making sense of the individual's relationship with light, rather than the investigation of light's essential nature, while telling the story of light "seducing" individuals from the Middle Ages to our modern times. Consequently, it is not concerned with the "progress" of scientific inquiries into the physical properties and behavior of light (optical science), but rather with subjective reactions as reflected in art, architecture, and literature. Instead of its evolution, this book celebrates the complexity of our relation to light's character. No individual experience of light being "truer" than any other.
