HOWEVER, SOME CANDIDATES MAY FIND MARATHON TEXTS MORE COMPLEX DUE TO SPECIALIZED VOCABULARY AND THE NEED TO INTERPRET STATISTICAL INFORMATION. UNLIKE MORE GENERAL TOPICS, WHERE EVERYDAY LANGUAGE PREVAILS, MARATHON-RELATED CONTENT DEMANDS FAMILIARITY WITH ATHLETIC TERMINOLOGY AND EVENT-SPECIFIC CONCEPTS.

THIS CONTRAST UNDERSCORES THE IMPORTANCE OF DIVERSIFIED PREPARATION, ENSURING CANDIDATES ARE NOT CAUGHT OFF GUARD BY ANY PARTICULAR SUBJECT AREA DURING THE EXAM.

**the london marathon fce answers: The London Marathon** John Bryant, 2010-12-15 'If you want to win something, run 100 metres. If you want to experience something, run a marathon' - Emil Zatopek The London Marathon salutes 25 years of the London Marathon by exploring the incredible physical and mental challenge that lies at the very heart of marathon running. It begins with the author standing on the start line at Blackheath for the very first London Marathon in March 1981. And it ends 26 miles and 25 years later, as the author emerges, still running, past Buckingham Palace and on through the miles and memories to the finish. From the legend of Pheidippides and the mystery of Spiridon Louis - who won the first modern Olympic marathon in 1896 - to the agony of Paula Radcliffe, reduced to tears on the long road to Athens more than a century later, this is a story of dreams, pain, struggle and achievement. The courage and the craziness of the characters who for 25 years have run the streets of London, have turned this race into the greatest marathon in the world. The London Marathon is a testament to their endeavour, and to the spirit that leads them each spring to tackle their own suburban Everest. This is their story.

**the london marathon fce answers: Chris Brasher** John Bryant, 2012-03-15 One of the most remarkable - and controversial - sporting figures in British history, Chris Brasher piled unique achievement on unique achievement. It was Chris Brasher who, along with Chris Chataway, paced

Roger Bannister to break the 4-minute mile. Then he won his own Olympic Gold Medal in the steeplechase at the 1956 Olympics. Probably best known now for founding the London Marathon, Chris went on to become one of the founders of the modern sports of fell-running and orienteering.. At the Observer, he also effectively invented modern sports feature writing. Plus, he also invented the now-ubiquitous Brasher walking boot, with the revolutionary aim of making heavy boots as comfortable as training shoes. Along the way he built up a highly successful sportswear chain, and even, in later life a stable of racehorses. But Chris Brasher was also a highly controversial individual: irascible, domineering – a good friend but a bad enemy – and above all a hugely competitive man who had to win in everything he did. Now, John Bryant, who knew Brasher well as a friend, has written the extraordinary story of this impossible and amazing man's life. Whether you're a sports journalist, a Lakeland fell-runner, a weekend Rambler or one of the 50,000 competitors in the London Marathon, Chris Brasher changed your life.

**the london marathon fce answers: From Parkrun to London Marathon** Jim Mowatt, 2016-11-01 The experience of running the London Marathon is all kinds of wonderful, topped off with lots of delicious amazing and served up with a side order of downright incredible. This book follows my journey to the marathon as I pound the streets, dress up in a rhino costume to visit eight different parkruns, and try to think of lots of interesting ways to raise money for Save The Rhino International. When I decided to run the London Marathon I wanted to immerse myself in the experience as much as possible. Part of that immersion was to read every account I could find from people who had been involved themselves. I found several existing books, which I review in these pages, but I wanted more and realised that other people might feel the same. This is my attempt to give you a little of what I craved at that time. This book describes in detail the experience of running the marathon from the point of view of quite a slow plodder. It will give you a real flavour of what it feels like to take part and a taste of the joy of it all. All proceeds from the sale of this book will be donated to the charity, Save The Rhino.

**the london marathon fce answers: The Looniness of the Long Distance Runner** Russell Taylor, 2001 The Looniness of the Long Distance Runner is one comparatively unfit 39-year old Londoner's humorous account of his attempt to run the New York marathon from scratch. (He chose the pre-Thanksgiving race in the Big Apple to avoid adding to his ordeal by having to train during the British winter.) Inspired by the charity running of friends, Russell Taylor set himself the challenge of doing what Pheidippides first had done. But to spare himself the post-event trauma of trying to extract money from the reluctant grasp of his sponsors, he decided to write a book about his experiences and donate the royalties to charity instead. This book follows our intrepid road-runner from the treadmills of a north London gymnasium via his first tentative fun run to the mean streets of the Bronx, Queens and Manhattan. Along the way, we encounter indescribably tasteless isotonic drinks, sweaty singlets, sports injuries, personal bests, split times, anxious queuing for the public toilets and an unfeasibly large quantity of bananas. We also discover what lurks within the breast of the endurance athlete: an unreasonable hatred of his fellow runner (except the nubile females of the species), a contempt for the idiocy of stadium announcers and a strange fear of spectators who line the route inanely shouting Keep Going by way of encouragement. The narrative

is interspersed by jocular reviews of films about running - not least *The Loneliness of the Long Distance Runner* - and a tongue-in-cheek description of the history of the marathon from its Ancient Greek origins to its modern-day revival as an Olympic event. Written with considerable panache and a self-deprecating sense of humour, this illuminating tale of obsessive and foolhardy sporting endeavour will make entertaining reading for (in descending order of athletic accomplishment) manic ultra-marathon runners, dedicated pavement pounders, occasional joggers and the simply curious alike.
