lyrics the way i am eminem: *Reading Eminem* Glenn Fosbraey, 2022-08-24 This book critically analyses Eminem's studio album releases from his first commercial album release *The Slim Shady LP* in 1999, to 2020's *Music To Be Murdered By*, through the lens of storytelling, truth and rhetoric, narrative structure, rhyme scheme and type, perspective, and celebrity culture. In terms of lyrical content, no area has been off-limits to Eminem, and he has written about domestic violence, murder, rape, child abuse, incest, drug addiction, and torture during his career. But whilst he will always be associated with these dark subjects, Mathers has also explored fatherhood, bereavement, mental illness, poverty, friendship, and love within his lyrics, and the juxtaposition between these very different themes (sometimes within the same song), make his lyrics complex, deep, and deserving of proper critical discussion. The first full-length monograph concerning Eminem's lyrics, this book affords the same rigorous analysis to a hip-hop artist as would be applied to any great writer's body of work; such analysis of 'popular' music is often overlooked. In addition to his rich exploration of Eminem's lyrics, Fosbraey furthermore delves into a variety of different aspects within popular music including extra-verbal elements, image, video, and surrounding culture. This critical study of his work will be an invaluable resource to academics working in the fields of Popular Music, English Literature, or Cultural Studies.

lyrics the way i am eminem: Handbook of Poetic Forms Jessica Bundschuh, Irmtraud Huber, 2025-10-06 This Handbook of Poetic Forms aims to offer historically informed approaches to

a wide variety of poetic forms. A particular emphasis will be on considering poetic form in dialogue with the cultural context in which it is being used, as well as within the literary tradition of each form, and to explore the stable as well as the historically variable affordances of each form in such contexts. Hereby, the focus lies on prescriptive forms, that is, on poetic forms which are defined by or at least associated with specific metrical, stanzaic or overall structures (or the absence of such), rather than poetic genres that are primarily characterised by similarities in subject matter (like the elegy or the ode). While this Handbook should be accessible to students, its aim is not to offer basic introductions, but rather to broaden a historical and functional understanding of the poetic forms it covers, and to engage with poetic forms not as givens, but as historically-contingent processes of formation. Above all, this Handbook's formalism is new formalist in emphasising historical awareness and contextualisation.
